# A GoRUFFLY Pilgrimage

a journey to celebrate the special bond between  
a person and a dog

Grieving from the loss of her beloved German shepherd, Moxie, traveler Jess Stone undertakes a heartwarming motorcycle pilgrimage to visit dog lovers who are doing extraordinary things with their furry companions.

*Moxie and I formed an extraordinary bond by riding together and traveling the world. I want to learn about the other extraordinary things that people do and the bond they form with their dog.*

– Jess

A **GoRUFFLY Pilgrimage** is a journey to celebrate the special bond between a person and a dog as Jess seeks to heal before opening her heart to a new K9 copilot who will continue the adventure around the world with her.

## BACKGROUND

Jess and Moxie covered 40K+ km and reached the Arctic Ocean last year after launching *GoRUFFLY Around the World* from Guatemala. On the way south to the Antarctic, Moxie went in for an ordinary knee surgery in March and passed away suddenly due to complications.
